GOAL

Young creative and **enterprising developer**. My desire is to work in a team where I can continuously improve on all levels and also share my knowledge.

KEY TECHNICAL SKILLS

- Fullstack development
    o **JavaScript ES6+, Typescript, NextJS, React, React Native, HTML/CSS**
    o **PHP/Laravel, Node.js, GraphQL.**
- **Devops :** Docker, Docker compose, Github CI/CD.
- **Database**: MySQL, MongoDB, FaunaDB.
- **Tests**: Jest, Storybook, Cypress.
- **Architecture**: Api Rest
- **Cloud**: Azure VM, Azure App Service, Azure Storage, Firease
- **OS** : Linux (Mint), Ubuntu, Windows
- Project Management

HUMAN SKILLS

- Creative and enterprising
- Enjoys problem solving
- Open-minded and adaptable
- Eager to learn new technologies

EXPERIENCE

Senior Fullstack Web Developer (Typescript, NextJS, Sanity, Node.js, GraphQL) *November 2023 – Today*
Tuan Dev Limited

Context : Website design with Typescript, NextJS and Sanity, Node, GraphQL.

Tasks and achievements :
- Development of new functionalities using **Typescript**, **NextJS**, **Sanity, FaunaDB, Node.js**.
- Quick and efficient task achievement
- Agile workspace
- Working with microservices architecture
- Code reviews and validation
- Tests of new components with cypress
- Writing documentation and testing components UI with Storybook
- Writing tests with Jest

Technical environment: NextJS / Typescript / Node.js / FaunaDB / GraphQL / Jest / Sanity / Git / Storybook / Cypress.

Team Lead *October 2022 – August 2023*
3W Academy (https://www.3wa.ma/) - Web Development Courses

Context : Trainer in web development bootcamps at the 3W Academy helping and teaching to computer science newbies or beginners in technologies like HTML, CSS, Jquery, Bootstrap, Javascript, Typescript, React, PHP, Laravel, Firebase, MERN.

Tasks and achievements :
- Course Preparation
- Practical Work and exercises
- Mini Projects
- Projects
- Web application Design
- Model Design
- Motivation
- BootCamps
- Student preparation to the job market

Technical environment : React / Javascript / PHP / HTML & CSS / Jquery / Bootstrap / C / Npm / Git / Firebase / Linux Mint.

Fullstack Developer *February 2022 – October 2022*
Kavaa Global Services (http://www.kavaa.net/) - Edtech

Context : Fullstack developer within **Kavaa Global Services** in a team of 05 people to build a healthcare center website and mobile application using ASP.NET, Angular, React Native and MySQL.

>   **Tasks and achievements :**
> - Analyze the needs
> - Write the technical specifications
> - Participate in the implementation of the software architecture and new features
> - Design and develop the web application with **Angular** and **ASP.NET Core**
> - Design and develop the mobile application with **React Native**
> - Ensure high performance front-end / client experiences
> - Identify and build a set of **reusable** and **configurable UI components**.
> - Develop and consume Api Rest with **ASP.NET**
> - Link API to MySQL Database
> - Perform application version management with **Git** on **Github**

>   *Technical environment : React Native / Angular / ASP.NET / Javascript / Api Rest / .NET framework / Npm / Git / Linux Mint.*

Lead Developer   *November 2020 –February 2022*
Univpocket (www.univpocket.com) - Edtech

Context : Lead developer within **Univpocket** in a team of 4 people to realize an application allowing the sharing of courses, news, instant discussions, and the follow-up of courses by videoconference.

>   **Tasks and achievements:**
> - Analyze the needs
> - Write the technical specifications
> - Participate in the implementation of the software architecture and new features
> - Design and develop the application in React Native and Laravel
> - Integrate and use the JavaScript library: Redux for state management
> - Ensure high performance front-end / client experiences
> - Identify and build a set of reusable and configurable UI components.
> - Develop and consume Api Rest
> - Perform application version management with Git on Github
> - Use of Windows and Linux OS
> - Training on Docker
> - Training on Python and Django

>   *Technical environment : React Native / Laravel / Javascript /PHP /Api Rest / Composer / Npm / Git / Linux Mint .*

Freelance Fullstack Developer   *September 2019 – November 2020*
Eido Global Service - Freelance

Context : Freelance developer working through online freelance platforms.

>   **Tasks and achievements :**

- Analyze the needs
- Write the technical specifications
- Design and development of mobile applications and websites
- Bug fixes
- Ensure high performance of front-end / customer experiences
- Identify and build a set of reusable and configurable UI components.
- Perform application versioning with Git on Github

Technical environment *: React / React Native / Laravel / Django / Node.js / MongoDB / Firebase / Javascript / PHP /Api Rest / Composer / Npm / Git.*

Fullstack Developer Intern

February 2019 – August 2019

SQLI-Maroc (https://www.sqli.com/ma-fr) - Digital Transformation

Context : Intern Fullstack Developer within **SQLI-Maroc** in an agile team of 05 people to realize the website of the CDG Institute.

Tasks and achievements :

- Analyze the needs
- Write the technical specifications
- Participate in the implementation of the software architecture of the new features
- Design and develop the application with Drupal 8.
- Participate in Scrum meetings (Agile - 4 week Sprint, Launch, Demo, StandUp)
- Work closely with the scrum master and other team members to prioritize deliverables and adapt to change.
- Training in the use of TDD and DRY methodologies.
- Training in React.js

Technical environment *: Drupal 8 / PHP / Javascript / HTML / CSS / Composer / Npm / Git / Vagrant / Virtual Box.*

EDUCATION

Engineer in Computer Engineering
Equivalence: Honor Bachelor's degree 4 years   *2016-2019*
National Institute of Statistics and Applied Economics (Morocco)

Science and Technics Diploma in Mathematics, Computer Science and Physics
Equivalence: Technical college diploma   *2014-2016*
Faculty of Science and Technology of Errachidia (Morocco)

LANGUAGES

- French: Mother Tongue
- English: Fluent

INTERESTS

- God
- Coding, Computers and new technologies
- Music, Dance, Musical Instruments
- Sports programs in English
- Entrepreneurship
